Southern Illinois University Carbondale
Center for Service-Learning & Volunteerism (CSLV)

SALUKI VOLUNTEER CORPS

Dear Student: We welcome your participation in Saluki Volunteer Corps (SVC). As an engaged citizen-scholar, we ask you to be informed of the policies that guide the program. The policies are based on the federal Higher Education Act as it pertains to community service.

When a student contributes time and effort directly to help a non-profit entity, it is community service (these are examples, not a full list)
• tutoring/reading to children at a local school or after school program
• preparing food boxes and distributing them at a food pantry
• reading news for the visually impaired at Southern IL Radio Information Service
• building a trail at a local park to improve the environment

Community service does NOT include (these are examples, not a full list)
• RSO meetings, or distributing program or event flyers
• writing letters, chalking, playing games, car washes or event planning
• meeting to plan a project or playing volleyball to raise money for a charity

Before the start of community service:
☐ Check the list of approved volunteer opportunities available at www.cslv.siu.edu. Students who volunteer at non-approved events will not receive service hours.
☐ Call the community agency to notify them of your participation.
☐ Pick up the SVC documentation form from our office or our webpage. Forms can be found at: www.cslv.siu.edu. Students will only receive service hours when submitted on the official documentation sheet.

After completing community service:
☐ Have your SVC form signed by the community organization staff (NOTE: forms signed by student officers, family members or forms that appear questionable will not be accepted).
☐ Return completed SVC forms no later than two weeks on completion of service.

You are welcome to meet our staff to share your ideas or questions. Our office is located in Room 491, on the 4th floor of the Student Services Building. Thank you for Making a Difference!

Items written in GREEN qualify for the Environmental Service Award.
